Subject: NBI Upgrade Weekly Status 7/05/13

Mike/ Erik

NBI Upgrade: BL2 handrail installation on the Source platform continues. TTC HVAC duct reinstallation is in progress and some decon of the SE corner was performed. Fabrication and leakchecking of LHe and LN cryo line continues in the NB shop. Installation in the NTC continues. Fabrication and welding continues on the NB/TVPS duct and bellows shield components in the Tech Shop. A requisition for port extension Moly shield material was processed and approved. Evaluation and analysis of the VV leg modification required for NB duct and TMP installation is imminent. SFLIP VV modification analysis continued with converging results. The DI water system subcontract continues with pipe fitting, welding, and installations in the Pump Room. Planning for MER work is in progress. The power system cable and tray procurement schedule has been generated. The drawing package is in final review. The JK VV reinforcements and SFLIP pieces are on order. The IP is in progress. LCC Controls work continues. NBI Armor ATJ tile machining is in progress and nearly complete. Delivery is imminent after which prep and assembly will begin.

Regards,

Tim
