A Work Planning System working group has been planned for developing next step requirements for the WP online system. Research continues on WP platform improvement including Sharepoint and FileMaker Pro. Work Planning System 7.1 IT work continues with testing in the development area. Several new COGs completed training; changes were made to the system and email group distribution. Management attended a WAF review. The next Project Status Review Board has been scheduled for 8/20/14; the next Work Planning Review Board to review new work plans has been scheduled for 8/22/14.
